

**Government Relations Program Pledge Form**

2016 will be an important year for the geosynthetics industry and GMA’s state and local lobbying efforts will be critical to the industries’ growth. During the course of this year we will be encouraging membership to be involved in the state and local programs. GMA members will be asked to attend meetings with state agencies, elected officials and to provide their industry expertise.

In order to continue to give GMA member unprecedented access to the hall of congress and state agencies, GMA will need to engage our lobbying partner Whitmer & Worrall at a higher level. Below is a pledge form that will give your company the chance to directly support the increased lobbying efforts. In 2014, our membership’s combined revenue exceeds 2 billion dollars and the federal spending on state highway planning & construction exceeded 35 billion dollars. Increased member involvement and financial support will help GMA continue to provide programing and build relationships that grow our members market share for years to come.

**Thank you for your continued support.**
